17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

The subject well is making large volumes of water and we are unable to keep the well unloaded and producing. The lowest perforated interval, 6594-6612, was tested on completion and flowed large quantities of water at that time. We plan to plug back from the lower zone by setting a bridge plug at 6575'.
