13 Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.

* BP America requests permission to complete the subject well into the Otero Chacra (82329) & commingle production downhole with the existing Blanco Mesaverde (72319) & Pictured Cliffs (72359) as per the attached procedure.

The MV (72319) and the PC (72359) and the Chacra (82329) are pre-approved to DHC per NMOCD order R-11363. Production is proposed to be allocated based on a fixed percent. It is our intent to isolate the MV & PC, complete into the CH, flow back to stabilize the Chacra & perform a Chacra flow test. Drill out bridge plug between the MV & CH, perform a combined stream test on MV & CH. Chacra test will be subtracted from the total and a % calculated to determine the flow rate for the MV & CH. A combined stream test will then be performed to determine the flow rate of the PC.

The override interest owners are slightly different between the Chacra & Mesaverde, therefore additional notification is required sent certified return receipt 3-25-08.

Trimingling production downhole in the subject well from the proposed pools will not reduce the value of the total remaining production.

14 I hereby certify that the foregoing is true and correct
