13 Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

RZ

A suspension of operations was approved on this well for the month of June. A pumping unit was being set on location, and after we had the rig on location, we had some unexpected downhole problems and were unable to get the work completed in June. Dugan Production requests an additional 30 day suspension until the end of July.
