13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Energen proposes to temporarily abandon the subject well and convert it into a pressure observation well. All current production equipment will be removed and packer at the end of tubing will be installed within 50 ft of the top perforations. Fruitland Coal perforations at 4238-4262 ft. A pressure test to 500 psig for 30 minutes will be performed to verify casing mechanical integrity. Periodic pressure tests will be performed as required. A profile nipple and blanking plug will run to shut-in the well.
