(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

An offset, proposed well pad and pipeline were re-located to minimize archaeologic impact in the area.

The new well pad would be at an unorthodox location unless the spacing units in subject section were changed from lay-down to stand-up.

The spacing unit for the Hoss Com #96 was changed from a lay-down to a stand-up orientation. All other information and material provided in the original APD dated 02/19/2008 will remain the same.
