13. Describe Proposed or Completed Operation (clearly state all pertinent details including estimated starting date of any proposed work and approximate duration thereof.

If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths or pertinent markers and sands. Attach the Bond under which the work will performed or provide the Bond No. on file with the BLM/ BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notice shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Devon Energy requests approval to deepen the intermediate casing point on the subject well. The approved APD has the intermediate TD at 3803' TMD. This depth will be in the deviated part of our hole (appx. 32 degrees). We would like to drill to an appx. Depth of 4993' TMD, which will bring our deviation to appx. 0 degrees. The original target will be the same for the BHL. Cement volumes will be adjusted accordingly.
