	<input type="checkbox"/> Change Plans	<input type="checkbox"/> Plug and Abandon	<input type="checkbox"/> Temporarily Abandon	Set plug and RDMO
	<input type="checkbox"/> Convert to Injection	<input type="checkbox"/> Plug Back	<input type="checkbox"/> Water Disposal	for 6 months

13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

Because of wellbore problems and fishing operations and due to the Carson National Forest winter closure effective November 1st, Energen Resources would like to set a temporary plug in the 7" 23 ppf intermediate casing and continue drilling operations beginning April 1, 2009.

The plug is anticipated to be set at 4225' MD with the top of fish at 4405' MD. A whipstock will be set on this plug and a window milled in the casing to continue drilling the lateral.

Subject San Juan 30-4 Unit #105 Sundry

Jim-

Got your message. The bottom of the fish, or the bit, is at 5050' MD. We had drilled 510' of lateral with the bottom of the wellbore at 5120' MD. We were washing/reaming to bottom when we got stuck. The 7" casing was set to 4610' MD inside the legal drilling window. The top of the fish is up inside the casing.

Thanks
