13 Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

This well has the removable bridge plug stuck in the well bore. We have had numerous packer hands come down with rigs and attempt to remove the bridge plug out of the well bore, with no luck. John Alexander is submitting a sundry to set a pit out on location and mill out the top of the slips and retrieve the plug. He should have everything done soon and hopefully the well back on production in November.
