Completion or Recompletion Report and Log form)

13 Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work) *

This well has the removable bridge plug stuck in the well bore. We have had numerous packer hands come down with rigs and attempt to remove the bridge plug out of the well bore, with no luck. An application for a closed loop system permit was submitted (Form C-144 CLEZ) on 11/19/08 for the workover on the well to mill out the top of the slips and retrieve the plug. We hope to have the well back on production in December.

extended to 12/31/08
