13 Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work)\*

Operator was unable to remove wellbore obstruction by 12/31/2008. Road conditions have made location access difficult. While we realize that our time to return this well to production has expired, we request that we be given until the end of April, 2009 to accomplish this. By returning the well to production, the well owners are best served.
