13 Describe Proposed or Completed Operations (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleation in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Devon would like to supplement the description of cmt behind the 4-1/2" csg near the existing PC perfs 4183'-4239'. The top of cmt from the sq perfs @ 6350' is amended to be 4360'. The cmt from the sq perfs @ 4130' went up to 2269' and down to 4300'. Therefore, the PC perfs 4183'-4239' have sufficient cmt behind the 4-1/2" csg.
