Gentlemen:

Attached is a copy of the allocation for the subject well that was commingled 5-9-01. DHC-358az was issued for this well.

Gas: Chacra 1%  
Mesaverde 99%

Oil: Chacra 0%  
Mesaverde 100%

These percentages are based upon reserves assigned to each formation founded on production from the respective formations before and after work-over operations. The Chacra formation does not produce any oil; therefore, oil percentages are allocated solely to the Mesaverde formation.

Please let me know if you have any questions.

Sincerely,

Peggy Cole  
Regulatory Supervisor
