OTHER: ☐

13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

This well was converted to POW (pressure observation well) the fall of 2008 - originally submitted on BIM form 3160-5 and approved by Farmington BIM-FFO office.

The well is classified as TA-Misc. Status per the direction of the Aztec NMCD District Office.

Background - when we went to retrieve the the pressure guages we could not recover with slickline.

The well will have to be pulled with a rig and will require the Packer and tubing to be removed.

Pat Sanchez obtained verbal approval on Thursday May 28 from Mr. Perrin and Mr. Roberts from NMCD to pull the well and remove the guages. The well will be returned to POW status and NMCD will be contacted 24 hours before MIT on tubing packer annulus.
