13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleation in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Huntington Energy, L.L.C. respectfully requests to cancel the Application for Permit to Drill, dated 12/2/2008, for the above referenced well due to economic issues. The following is the plan for reclaiming the pit and location:

Contact Mark Kelly with BLM 24 hours prior to reclaiming the pit and location. A minimum of 4 ft of cover is achieved including a suitable layer of material to establish vegetation at the site. All re-contouring of location will match fit shape, line, and texture of the surrounding area. BLM stipulated seed mixes will be used. Repeated seeding or planting will be continued until successful growth occurs. No pit marker is needed. The pit was never used, only constructed.
