They also propose to change the change the drilling plan for this well to add the Fulcher Kutz Pictured Cliffs (77200) as a completion interval. The drilling program and pit permit will not change. The Fulcher Kutz Pictured Cliffs will be completed and tested to determine if commercial production exists. After this testing period is complete a bridge plug will be set above the Pictured Cliffs and the Basin Fruitland Coal interval will be completed and tested. If commercial production exists in both zones they will apply for downhole commingling of the intervals.
