**13. Describe Proposed or Completed Operations**

Due to the shape and layout and close proximity to the lake and mountains, Burlington Resources would like to change the layout of the wellpad that services two wells. Moving the facilities for the two wells to the North side of the pad will help the visual impact the equipment has from the lake and avoid safety concerns that our facilities department had. Attached is a drawing that illustrates the proposed layout.

Mark Kelly with the BLM gave verbal approval for the change on 10/29/09.
