NATURE OF RELEASE

Type of Release – Condensate & Produced Water	Volume of Release – 27.5 BBL Condensate and 23.5 Produced Water	Volume Recovered – 0 BBL
Source of Release: Tank Leak	Date and Hour of Occurrence Unknown	Date and Hour of Discovery 12/22/08 – 1:10 p.m.
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? OCD - Brandon Powell via phone call & email BLM - Kevin Schneider via phone call & email	
By Whom? Gwen Frost	Date and Hour – 12/23/08 – 10:30 a.m. PCVD DEC 31 '08	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse. OIL CONS. DIV.	
If a Watercourse was Impacted, Describe Fully.* DIST. 3		

Describe Cause of Problem and Remedial Action Taken.* **On December 22, 2008, a COPC MSO discovered an approximate 27.5 BBL condensate & 23.5 produced water was released on the Nye Federal #3 due to a leak in the production tank possibly from corrosion. Upon discovery, the MSO shut in the well and notified COPC. All spilled fluids remained in the berm. None of the condensate was recoverable.**

Describe Area Affected and Cleanup Action Taken.* **All of the spilled fluids remained on location. The spill impacted soil on the ground surface around the tank. The production tank will be removed and affected soils will be excavated. To prevent reoccurrence, COPC will continue to perform tank inspections.**

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
