			OF RELEASE DIST. 3			
Type of Release - Produced W		Volume of Release – 40 BBL Volume Recovered – none				
Source of Release: Leak due to	Date and Hour of Occurrence Date and Hour of Discovery					
	unknown 6/22/08 – 9:30 a.m.					
Was Immediate Notice Given?	· ·	If YES, To Whom?				
	OCD - Brandon Powell via phone & email BLM - Kevin Schneider via email					
By Whom? Kristina	Date and Hour – 6/2308 – 3:00 p.m.					
Was a Watercourse Reached?	If YES, Volume Impacting the Watercourse.					
was a watercourse reached:	if TES, volume impacting the watercourse.					
☐ Yes ☒ No  If a Watercourse was Impacted, Describe Fully.*						
Describe Cause of Problem and Remedial Action Taken.* A ConocoPhillips employee discovered a spill of approximately 40 BBL.						
of produced water at the San Juan 32-7 #301 SWD on the morning of 6/22/08 due to a leak in the suction line. The line						
broke due to vibration. Upon discovery, the employee shut valves on the suction line.						
broke due to the answer of the discovery, the employee ends talled on the education miles						
Describe Area Affected and Cleanup Action Taken.* The spilled fluids traveled 1200' off location down a wash because the storm						
valve in the secondary containment was left open. No fluids were recovered. The affected area was sampled by						
Envirotech to determine if further remediation is necessary. The suction line was replaced and the storm drain valve						
was closed. To prevent reoccurrence, COPC will inspect storm drain valves monthly to determine that they are in the						
closed position.						
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger						
public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability						
	should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health					
or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other						
federal, state, or local laws and/or regulations.
