Describe Cause of Problem and Remedial Action Taken.\* **On September 7, 2009, as starch based mud was being circulated through the pit, the hose from the mud pit disconnected from the pump. Circulation was stopped and all starch based mud remained on location. A vacuum truck recovered 50 BBLS of starch based drilling mud.**

Describe Area Affected and Cleanup Action Taken.\* **All starch based mud remained on location. A vacuum truck was called to location and recovered 50 BBLS of starch based mud. After the rig moves off, the soil will be assessed and will be remediated, if needed.**

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
