NATURE OF RELEASE

Type of Release – Produced Water	Volume of Release – 30 BBL	Volume Recovered – 30 BBL
Source of Release: Water transfer pump leak due to corrosion	Date and Hour of Occurrence	Date and Hour of Discovery 3/27/08
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? OCD - Brandon Powell via phone & email BLM - Kevin Schneider via email	
By Whom? Kristina Kovach	Date and Hour – 4/2/08 – 12:00 p.m.	RCVD HPR 10-08
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse. OIL CONS. DIV.	
If a Watercourse was Impacted, Describe Fully.* DIST. 3		

Describe Cause of Problem and Remedial Action Taken.* **A NM OCD inspector discovered a produced water spill of approximately 30 BBL at the San Juan 32-9 #291 on 3/27/08. The spill resulted from a leak in the water transfer pump due to corrosion. Upon discovery, the tank valve to the water pipeline was shut, and the pumping unit was isolated.**

Describe Area Affected and Cleanup Action Taken.* **All of the spilled fluids were contained within the berm, and all were recovered by vacuum truck. COP will monitor soil conditions to determine if further remediation is necessary. To prevent reoccurrence, COP will remove standing water in berms as soon as is practical and continue monthly inspections of tanks and valves.**

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
