& MIT TEST RESULTS

- 13 Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

XTO Energy Inc. requests permission to leave this well in temporarily abandoned status. TA status was previously applied for on 01/10/2008 & permission was granted on 01/30/2008. TA status expired on August 26, 2008. This well is currently under evaluation and additional time is needed.

XTO performed an MIT test on 11/12/2009 by PT csg to 550 psig for 30 minutes w/ chart recorder. Tested OK. SWI.

Please see the attached chart.
