If a Watercourse was Impacted, Describe Fully.* <b>DIST. 3</b>		

Describe Cause of Problem and Remedial Action Taken.\* **Approximately 11 BBL of produced water was spilled to the ground as a result of a small hole in the lower portion of the production tank. Upon discovery, the well was shut in and the hole was plugged to stop the leak. All of the produced water remained on location.**

Describe Area Affected and Cleanup Action Taken.\* **To prevent reoccurrence, the production tank will be inspected & repaired. The soils will be evaluated and remediated as needed.**

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
