	<input type="checkbox"/> Altering Casing <input type="checkbox"/> Conversion to Injection
	<input checked="" type="checkbox"/> Other -

13. Describe Proposed or Completed Operations

Please consider the referenced well for an exception to the new seasonal drilling restrictions. We submitted the application for permit to drill this well on 3/24/2003 and received approval from the BLM on 11/13/2003. The approved application for permit to drill stipulated, "The location of the proposed action is located within a designated Big Game Winter range area. Big Game Winter wintering range area will have no construction drill or completion activities shall be conducted between December 1 and March 31". It is intended to move on location with the next available rig around January 6, 2004. Plans are to to drill, complete, and get pipeline ROW completed during the restricted time, and place the well on production by Mid-February, 2004. The wellbore will be completed by underreaming from intermediate to TD, set a 5-1/2" liner and run production tubing. The well will not be cavitated until Spring 2004.

14. I hereby certify that the foregoing is true and correct.
