13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

We request a six (6) month test period for the Fruitland Coal completion. There are no offsetting coal completions. The well is producing approximately 100 bwpd while swabbing. We will install a rod pump to pump off water so that the productive ability of the coal can be properly evaluated. If we determine that the well is economic prior to the evaluation time requested here, we will notify the BLM and commence construction of a sales line.
