MES	15	65 MCFD	60%				60%			
DA	10	42 MCFD	40%	40%			40%			
			2607							
JUSTIFICATION OF ALLOCATION: These percentages are based upon isolated flow tests from the Mesaverde and Dakota formations during completion operations. Oil was not present during flow test operations. For that reason, oil percentages are based upon the gas allocation and are provided in the event this wellbore begins producing oil at some point in the future.  RCUD JAN 7'10 OIL CONS. DIV.  DIST. 3
