13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Please reference BLM letter dated January 11, 2010

To save the wellbore for possible future DHC our plan is to make piping modifications to the wellhead & produce the Gallup through the old Dakota meter. Due to sand build up the Dakota side of this dual wellbore is shut in and unable to produce.

BP respectfully request approval to continue shut in status until internal requirements are met & work can begin. BP expects to have the re-piping completed by the end of Feb. and produce the well in March 2010.
