Submit 2 Copies to appropriate District Office in accordance

Form C-141

Revised March 17, 1999

with Rule 116 on back side of form

## Release Notification and Corrective Action **OPERATOR** X Initial Report Final Report Contact R. A. Wirtanen Name of Company **Phillips Petroleum Company** Telephone No. 505-599-3462 Address 5525 Hwy. 64 Farmington, NM 87401 Facility Name Facility Type Gas Well San Juan 29-6 Unit #70A Mineral Owner Surface Owner Lease No. NM03040A **Bureau of Land Management Bureau of Land Management** LOCATION OF RELEASE Unit Letter Township Feet from the North/South Line Feet from the East/West Line County Rio Arriba Section Range 29 29N 6W 1490' North 850' West E NATURE OF RELEASE Type of Release Volume of Release Volume Recovered -0-Estimated 9 bls Condensate Date and Hour of Occurrence Date and Hour of Discovery 2/26/02 Source of Release Hole in bottom of condensate tank (est. 23 + year old tank) Sometime after 2/11/02 @ 1530 hrs by PPCo Operator Was Immediate Notice Given? If YES, To Whom? X Yes No Not Required NMOCD - Denny Foust via -e-mail. BLM - Mark Kelly via - e-mail By Whom? Date and Hour 2/27/02 10:15 hrs Patsy Clugston - Sr. Regulatory Clerk Was a Watercourse Reached? If YES, Volume Impacting the Watercourse. ☐ Yes X No N/A If a Watercourse was Impacted, Describe Fully.\* A watercourse was not reached. Describe Cause of Problem and Remedial Action Taken.\* Operator gauged the tank and found approx. 9 bbl less condensate, then he looked around and noticed a small oil stain at the back of the tank. There were no puddles of condensate on the ground. There had been ice at the bottom of the tank and lately it was warm enough for the ice to thaw and the water and condensate most of started leak through the bottom. No condensate was recovered. Describe Area Affected and Cleanup Action Taken.\* The tank was immediately emptied and plans are to replace the condensate tank and landfarm the soils within the berm at Envirotech. I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
