NATURE OF RELEASE

Type of Release - Produced water (Fruitland Coal)	Volume of Release - 146 BBL	Volume Recovered - 130 BBL
Source of Release: Tank valve not completely closed	Date and Hour of Occurrence 9/22/07 - 3:18 p.m. (from telemetry)	Date and Hour of Discovery 9/27/07 - 2:15 p.m.
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Brandon Powell - OCD - via voicemail and email Richard Gallegos - NM State Land Office - via email	
By Whom? Monica D. Johnson	Date and Hour - 9/28/07 - 2:30 p.m.	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.* **A Fruitland Coal produced water spill of 146 BBL (based on telemetry trending) was discovered at the San Juan 30-6 Unit #408 on the afternoon of 9/27/07, due to the tank valve not being completely closed. From analysis of our well telemetry, it was determined that the spill began on the afternoon of 9/22/07, just after a water hauler had picked up a load of produced water, so it is possible that the spill resulted from the valve not being completely closed. All fluids were contained within the tank berm area, with 130 BBL recovered by a vacuum truck.**

Describe Area Affected and Cleanup Action Taken.* **All fluids were contained within the tank berm area, with 130 BBL recovered by a vacuum truck. For remediation of the remaining impacted soils, the soil will be raked.**

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
