Form C-141

District Office in accordance with Rule 116 on back side of form

Release Notification and Corrective Action **OPERATOR** X Initial Report Final Report Name of Company Contact□R. A. Wirtanen **Phillips Petroleum Company** Address Telephone No. 505-599-3462 5525 Hwy. 64 Farmington, NM 87401 Facility Type ☐ Water Disposal Well Facility Name San Juan 31-6 #301 SWD Surface Owner Mineral Owner Lease No. NM012735 **Bureau of Land Management Bureau of Land Management** LOCATION OF RELEASE Unit Letter Section Township Range Feet from the North/South Line Feet from the East/West Line County Rio Arriba В 30N 980' 6 **6W** North 2175' East NATURE OF RELEASE Type of Release Volume of Release Volume Recovered \(\text{None as of} \) Produced Water & oil mixed Est. 50 bbls 1/21/02 Source of Release Date and Hour of Occurrence Date and Hour of Discovery □ 1/21/01 Overflowed storage tanks (cause to be determined) Unknown If YES, To Whom? Was Immediate Notice Given? X Yes No Not Required NMOCD - Denny Foust via -e-mail. By Whom? Date and Hour □ 1/21/02 @ 1400 hrs Patsy Clugston - Sr. Regulatory Clerk Was a Watercourse Reached? If YES, Volume Impacting the Watercourse. ☐ Yes X No N/A If a Watercourse was Impacted, Describe Fully.* A watercourse was not reached. Describe Cause of Problem and Remedial Action Taken.* The cause of this spill was most likely a high level shut-down switch that didn't function properly or perhaps the automatic transfer pumps didn't start. This will be verified. This was discovered by cleaning up a previous spill (1/14/02). Describe Area Affected and Cleanup Action Taken.* Spilled produced water did not leave location, nor did it leave the tank berm area. We currently estimate 200 cubic yards of soil to be landfarmed at Envirotech. To be confirmed on final report. Lab reports are pending receipt. Approx. area affected is 70'X30'X2.5' deep - see attached photos and sketch. I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
