If a Watercourse was Impacted, Describe Fully.		
Describe Cause of Problem and Remedial Action Taken. <b>Due to freezing weather, automatic tank gauge miss read and production tank allowed to overfill to SGT and SGT overfilled. Produced water retained in secondary containment. Well temporarily shut in until water recovered from containment and tanks pulled down.</b>		
Describe Area Affected and Cleanup Action Taken. <b>As well pad and containment to be sterilized during production life of well, will reclaim when well P&amp;A'd. No further action being taken at this time. Arrangements made to repair remote level sensor and alarm.</b>		
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
