NATURE OF RELEASE

Type of Release: Produced Water	Volume of Release: 20	Volume Recovered: 18
Source of Release: Water Separator	Date and Hour of Occurrence: 3/22/2002	Date and Hour of Discovery: 3/22/2002
Was Immediate Notice Given? <input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> Not Required	If Yes, To Whom?	
By Whom?	Date and Hour:	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse. 0	

If a Watercourse was Impacted, Describe Fully. (Attach Additional Sheets If Necessary)

NA

Describe Cause of Problem and Remedial Action Taken. (Attach Additional Sheets If Necessary)

An automatic valve failed while changing filters causing the water separator to overflow. All fluids were contained within the bermed area. Free liquids were recovered using a vacuum truck.

Describe Area Affected and Cleanup Action Taken. (Attach Additional Sheets If Necessary)

All fluids were contained within the bermed area. Soils may be raked/dragged after it dries out. The reason for the valve failure was due to a loss of communication with the tank floats. This has been corrected allowing the floats to show the proper tank level.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
