Release Notification and Corrective Action

API # 30-039-27684

OPERATOR

☐ Initial Report ☒ Final Report

Name of Company	Burlington Resources	Contact	Ed Hasely
Address	P.O. Box 4289 Farmington NM 87499	Telephone No.	(505) 326-9700
Facility Name	SAN JUAN 30-6 UNIT	Facility Type	Gas Well
Surface Owner	Federal	Mineral Owner	Federal
Lease No.	NMSF-080712		

LOCATION OF RELEASE

Unit Letter	Section	Township	Range	Feet from the	North/South Line	Feet from the	East/West Line	County
J	20	030N	006W	2080	South	1380	East	Rio Arriba

NATURE OF RELEASE

Type of Release	Produced Water	Volume of Release	190 BBLs	Volume Recovered	180 BBLs
Source of Release	Storage Tank	Date and Hour of Occurrence	2/1/2007	Date and Hour of Discovery	2/1/2007 12:00:00 PM
Was Immediate Notice Given?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom?	Brandon Powell - OCD, Mark Kelly - BLM		
By Whom?	Ed Hasely	Date and Hour	2/2/2007 3:00:00 PM		
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	0		

If a Watercourse was Impacted, Describe Fully.*
NA

Describe Cause of Problem and Remedial Action Taken.*
A water truck driver was attempting to pull produced water from the tank and the load valve broke releasing produced water into the bermed area. A collar with a hose was stabbed onto the tank valve in an attempt to stop the release. This slowed, but did not stop, the release of water, while water trucks removed the remaining water in the tanks. Originally, the spill was estimated at 60 bbls, but by the time the water trucks were able to empty the tank and stop the leak, approximately 190 bbls were released. Water trucks recovered 180 bbls out of the bermed area.

Describe Area Affected and Cleanup Action Taken.*
All fluids were contained in the berm. A vacuum truck recovered the free standing fluid. The impacted soils will be raked if necessary to break up any crust that may form.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
