If a Watercourse was Impacted, Describe Fully.			RCVD AUG 23 '07 OIL CONS. DIV.		
Describe Cause of Problem and Remedial Action Taken.			DIST. 3		
While filling temporary frac tank with water, driver observed leak from seem weld. Discontinued loading tank, pulled remaining water off tank.					
Describe Area Affected and Cleanup Action Taken.					
Removed tank following completion. Water was clear and remained on site under tank. Impacted soils to be remediated during interim and final site reclamation.					
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
