#### NATURE OF RELEASE

Type of Release:	Produced Water and Condensate.	Volume of Release:	15 BBLS.	Volume Recovered:	0 BBLS.
Source of Release:	Pit Tank	Date and Hour of Occurrence:	12/17/2002	Date and Hour of Discovery:	12/17/2002
Was Immediate Notice Given?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If Yes, To Whom?	Denny Foust		
By Whom?	Ed Hasely	Date and Hour:	12/18/2002 3:30:00 P		
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	0		

If a Watercourse was Impacted, Describe Fully. (Attach Additional Sheets If Necessary)

NA

Describe Cause of Problem and Remedial Action Taken. (Attach Additional Sheets If Necessary)

A corrosion hole in the bottom of a steel pit tank that collected fluids from the separator and condensate tank drain allowed an unknown volume of produced water and condensate to leak onto the ground.

Describe Area Affected and Cleanup Action Taken. (Attach Additional Sheets If Necessary)

All fluids were contained inside the tank berm. Impacted gravel and soils were excavated and disposed at JFJ Landfarm. Excavation was approximately 30 ft by 25 ft by 3 ft for a total of 85 cy. A thick clay layer existed at an approximate depth of 2.5 ft. Soil samples collected at 3 ft in the center of the excavation and the walls all showed less than 10 ppm using a PID on heated headspace samples.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOC rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOC marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOC acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
