Describe Cause of Problem and Remedial Action Taken \* On Saturday, 02/10/07 an XTO employee and contractor responded to a produced oil spill from the separator Upon inspection it was discovered the site glass on the separator broke Approximately 50 barrels of produced oil was lost across location and traveled downhill about 300 yards. The well was immediately shut in. A vacuum truck was dispatched to recover any standing produced oil and a roustabout crew began clean up

Describe Area Affected and Cleanup Action Taken \* Upon discovery of the release the well was immediately shut in and clean up began. Roustabout crews and a local contractor cleaned the release with shovels, placing impacted soil into 55 gallon drums and bags with minimal surface disturbance BLM was contacted regarding archaeological and biological surveys and continued remediation Once surveys have been completed and approval from BLM received, drums and soil bags containing impacted soil will be collected and the area sampled to confirm impacted soils have been removed.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations
