### NATURE OF RELEASE

Type of Release – <b>Produced water</b>	Volume of Release – <b>10 BBL</b>	Volume Recovered – <b>none</b>
Source of Release: <b>Stuffing box and sight glass on pumping tee</b>	Date and Hour of Occurrence <b>7/11/07</b>	Date and Hour of Discovery <b>7/11/07 – 1:30 p.m.</b>
Was Immediate Notice Given? <input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> Not Required	If YES, To Whom? <b>Brandon Powell – NMOCD – via email</b> <b>Richard Gallegos – NM State Land Office – via email</b>	
By Whom? <b>Monica D. Johnson</b>	Date and Hour – <b>7/12/07 – 11:00 a.m.</b>	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.\*

Describe Cause of Problem and Remedial Action Taken.\* **Our MSO (lease operator) discovered a produced water spill of an estimated 10 BBL at the Rattlesnake Canyon #101 on 7/11/07, due to a leak at the pumping unit tee from the sight glass on the pressure gauge and from the stuffing box. This occurred because the valve was shut that goes from the pumping tee to the tanks. The pumping unit was still running upon arrival and the rods were sticking out. All fluids remained on location, affecting an area 30' x 10' x 2" deep. The soil is clayey, and it soaked up the water and dried out, with no fluids recoverable. The pumping unit was shut down and the valve to the tanks opened to relieve pressure to the production tanks.**

Describe Area Affected and Cleanup Action Taken.\* **All fluids remained on location, affecting an area 30' x 10' x 2" deep. The soil is clayey, and it soaked up the water and dried out, with no fluids recoverable. The soil will be raked to naturally remediate any stained soils.**

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
