If a Watercourse was Impacted, Describe Fully.\*

Describe Cause of Problem and Remedial Action Taken.\*

**Failed packing gland on stuffing box. Well SI until packing is replaced. Key sucked 15 bbls of water & pumped into tank on location. Crews are collecting tainted soil, which will be taken to Envirotech to be landfarmed.**

Describe Area Affected and Cleanup Action Taken.\*

**Areas affected - on Location - 60' X 60' - 15 bbls recovered and put in tank; Off location - 70'X1' (est. less than 1 bbl left location). The water that left location followed a down gradient to a low point. No vegetation was affected by the spill. In process of removing effected soils and will landfarm at Envirotech site. Photos available upon request.**

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
