By Whom?	Ed Hasely	Date and Hour	3/9/2007 7:30:00 AM		
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse	0		

If a Watercourse was Impacted, Describe Fully.\*

NA

API Number 3004529761

Describe Cause of Problem and Remedial Action Taken.\*

A leak at the relief valve on the discharge side of the water transfer pump at the production water tank allowed the water to leak into the bermed area..

Describe Area Affected and Cleanup Action Taken.\*

All released fluids were contained inside the bermed area. A vacuum truck was used to recover the free standing liquids. The impacted soils within the bermed area will be raked if necessary to break up any crust that may form.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
