NATURE OF RELEASE

Type of Release – Produced water	Volume of Release – 43 BBL	Volume Recovered – 40 BBL
Source of Release: Water pipeline weld break	Date and Hour of Occurrence 6/9/07	Date and Hour of Discovery 6/9/07 – 11:00 a.m.
Was Immediate Notice Given? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> Not Required Not reported immediately because this was mistakenly thought to be a 3 BBL spill, as 40 BBL was recovered from valve can	If YES, To Whom? Brandon Powell – OCD – via phone and email Mark Kelly – BLM – via voicemail and email	
By Whom? Monica D. Johnson	Date and Hour – 6/14/07 – 9:30 a.m.	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.* **A COPC employee discovered a spill of 43 BBL produced water on the San Juan 32-8 Unit #238A water gathering line on Saturday, 6/9/07. The spill occurred because a weld broke on the pipeline, as the pipeline appeared to be in a bind. Forty (40) BBL was contained and recovered by vacuum truck from the water can, and 3 BBL overflowed from the water can and traveled to the San Juan 32-8 #17M location and soaked in. Upon discovery, the spill was isolated by shutting down the transfer pumps feeding the line and the block valve at the main line.**

OIL CONS. DIV.
DIST. 3

Describe Area Affected and Cleanup Action Taken.* **Forty (40) BBL was contained and recovered by vacuum truck from the water can, and 3 BBL overflowed from the water can and traveled to the San Juan 32-8 #17M location and soaked in. The pipeline was re-welded on 6/11/07, and the impacted soils were raked for remediation.**

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
