Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse 0			

If a Watercourse was Impacted, Describe Fully *

Describe Cause of Problem and Remedial Action Taken *

Brass valve on water line froze and broke. Water was spread out 20 yd by 20' area of the location and was unrecoverable. Water was contained on location with earthen berm to prevent run off. Area will be allowed to dry and soils will be raked to promote evaporation and soil remediation. Valve was replaced.

Describe Area Affected and Cleanup Action Taken.*

An area 20 yds by 20 yds on location.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
