13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

We request permission to connect the Cuccia Com 90 to a sales line located at the Cuccia 1. The Cuccia 1 is located 1450' fml & 1600' fel S.14-T.31N-R.13W, API 30-045-10776. An application to create a CDP and commingle production for the Cuccia 1 and Cuccia Com 90 has been submitted. Approximately 1200' of steel 2-3/8" line will be used to connect the two wells. The line will be pressure tested to 1,500 psi prior to being placed in operation. The Cuccia Com 90 has been tested with marginal flow rates but very high pressure. For this reason, the line connecting the two wells will be laid temporarily on the surface. After sales are established, the Cuccia Com 90 will be evaluated to establish economic viability. If the well is economic, the connecting line will be buried. A portion of the ROW for the connecting line crosses private surface. Surface ownership will be obtained prior to laying the line.

RCVD FEB 8 '10  
OIL CONS. DIV.  
DIST. 3

We further request that a test period of six (6) months be allowed to determine the well economics

14. I hereby certify that the foregoing is true and correct.

Electronic Submission #79661 verified by the BLM Well Information System  
For DUGAN PRODUCTION CORPORATION, sent to the Farmington  
Committed to AFMSS for processing by BILL LIESS on 02/03/2010 (10BXL0020SE)
