If well is directionally drilled give subsurface locations and measured and true vertical depths for all markers and zones of pertinent to this work.

Synergy Operating LLC has completed the recontouring and reseeding following

the plugging and abandonment of this well. Mr. Bob Switzer with the BLM witnessed

some of the recontouring activities and gave BLM approval to begin the reseeding process.

The attached documentation from the seeding contractor describes the process utilized.

A final inspection 2 years from this date
is necessary before FAN can be approved.
