13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

This well is drilled and cased. Our sales line pressures are presently too high to produce the well. We are currently increasing the line size in the area to provide a lower operating pressure and provide a measure of safety for pipeline pressures. Construction will be complete in the next few weeks. Once the gathering system is complete, we will begin well completion and bring the wells to production. We request that we be given until December 31, 2010 to place this well on production.
