	<input type="checkbox"/> Convert to Injection	<input type="checkbox"/> Plug Back	<input type="checkbox"/> Water Disposal	

13 Describe Proposed or Completed Operation. Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Maralex respectfully requests that this well be placed in a temporarily abandoned status for the following reasons:

The well is in the same spacing as a newly drilled well which is ready to produce upon BLM and OCD approval. That well is the Brookhaven A 2H. Maralex would like to review the possibility of completing this well in another zone, but needs some time to complete that analysis.

The following procedure was completed on 6/25/10 to render this well inoperable: Remove horse's head, Unseat pump, TOH LD 3/4" rods on trailer, LD 51 jts and one 10' sub. ND BOP, NU flange w/valve on top, SWI.

Attached is a wellbore diagram. Upon approval, Maralex will meet the additional terms and conditions under Part B of the General Requirements for Non-Producing Wells on Federal Oil and Gas Leases, copy also attached.

FA approved until 8/15/11

Must comply with NMOCD Rules
19.15.25.12, 19.15.25.13 and
19.15.25.14

Notify NMOCD 24 hrs
prior to beginning
operations
