Dear Ms. Eckstein:

The 2003 Packer Leakage Test was not performed until January 21, 2003. Tests are required to be conducted on an annual basis.

The test on the referenced well does not provide the proper information. In order to comply with Rule #112A, you are hereby directed to retest the well to show separation of the zones prior to February 1, 2000. Notify the Aztec OCD in time to witness the retest. If there is not a crossover of pressures conduct complete test.
