May Compliance Well

8/11/10 While on location to P&A the entire wellbore, BP found a plunger in the end of the tubing on the above mentioned well. This was unexpected and changes the P&A plan. We would like to produce the well, however the location is stripped of the meter run & production equipment.

8/16/10 Conversations with Steve Mason (BLM) & Kelly Roberts (NMOCD).
BP requests permission to leave well in Shut In status for a short period of time in order to bring equipment back to the location, hook up and restore well to production.

BP respectfully requests permission to cancel the P&A procedure.
