13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

This well was temporarily abandoned in 2009 per the condition(s) listed below:

- Energen will annually update the status of the 80 acre infill and will submit a subsequent report requesting a continued status of TA, or if a change of status is needed to produce (i.e. 80 acre infill approved) or to plug and abandon the well, Energen will submit a NOI.
- The casing pressure test is good for five years, at which point, if the well is still not activated, another casing MIT will be performed on the well.

Based on the above conditions:

Energen requests that the TA status continue on the wellbore one more year pending 80 acre FRC study/committee results. (through August 10, 2011)
