Commingle PC 1167**

13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.

BP is no longer using the Hardie Wilch CDP 002.

The Hardie LS #1 and Wilch A #1 were being compressed & metered through the CDP. This is no longer the case.

The Hardie LS #1 is now compressed and the Wilch A #1 is no longer compressed. The Hardie Wilch CDP 002 no longer exists.

The meter numbers have changed. Enterprise has reassigned the original meter #'s (before CDP) to the wells:  
Hardie LS #1 was Enterprise meter 70295, then BP 52970295, and now BP will be using Enterprise meter 70295.  
Wilch A #1 was Enterprise meter 75148, then BP 52975148, and now BP will be using Enterprise meter 75148.

Hardie LS #1 - meter 70295 - returned to production on 05/20/2010.

Wilch A #1 - meter 75148 - is shut in waiting on automation repair.

If you have any questions please contact Allan Pillars 326-9248.
