	<input checked="" type="checkbox"/> Change Plans	<input type="checkbox"/> Plug and Abandon	<input type="checkbox"/> Temporarily Abandon	
	<input type="checkbox"/> Convert to Injection	<input type="checkbox"/> Plug Back	<input type="checkbox"/> Water Disposal	

13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

Energen Resources would like to make the following change to the Carracas 12A #1H. The changes will be pertaining to setting a plug and whipstock and milling a window to sidetrack well.

- * As previously submitted, the open hole plug that was set to use as for sidetrack did not work. We decided to set a bridge plug and a whipstock inside the casing, mill a window and kickoff.
- * The 7" intermediate casing shoe is set at 4695'MD, 4155'TVD and a bridge plug was set inside the legal window at 4688'MD. Bridge plug was tested to 1500psi for 30 minutes.
- * Whipstock was set on top of bridge plug and window was milled from 4674'MD - 4685'MD. ✓

Verbal approval was attained from Jim Lavato at the BLM before conducting operations. ✓

RCVD NOV 2 '10
OIL CONS. DIV.

DIST. 3

* Upon completion, submit current well bore diagram

14. I hereby certify that the foregoing is true and correct
