NA

Describe Cause of Problem and Remedial Action Taken.*

Blockage in the back pressure choke from coal fines caused the stuffing box to leak water out the packing.

Describe Area Affected and Cleanup Action Taken.*

The choke was isolated so it could be cleaned out. All fluids were contained on location. The impacted soils will be raked as necessary to break up any crust that may form.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
